FISCAL ANALYSIS

ASSUMPTION

In response to a previous version of this proposal, officials from the **Department of Transportation** assume no fiscal impact to their organization.

Officials from the **Department of Revenue** assumed a cost of \$3,000 for programming changes to the purchased drivers license computer system. **Oversight** assumes the programming cost can be absorbed from existing resources.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

DESCRIPTION

This proposal would create an alternative method of obtaining temporary driving permit. The required twenty hours of behind-the-wheel driving experience may include time spent in a driver training program taught by a driver training instructor holding a valid driver education endorsement from the Department of Elementary and Secondary Education or by a qualified instructor of a private driver's education program.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
